

A Helsinki, Finland based company operating in customer services, delivering the „fair splitting” social mobile application to private end-users around Europe.

Mobile application for iOS, WindowsPhone and Android

BUSINESS NEED

Providing a modern and user-friendly „fair splitting” application to be operated on iOS, Windows Phone and Android platforms.

WHAT WE DID

Sii has been appointed to rebuild an innovative application for „fair splitting” transactions to be operated on 3 platforms with a single workload effort. To meet this target a recommendation for using the Xamarin tool has been given. Sii is delivering comprehensive front-end and back-end services and providing code re-engineering of the preexisting app build by a 3rd party. Sii is introducing key changes to the functionalities of the app, including new features, like SMS registration, SMS invitations, integration with the Payment Highway payment system, viral campaigns and others.

EFFECTS

Project in progress: The first version of the application dedicated for 3 platforms, was available in stores in October 2015. Currently Sii is working on the implementation of new features.

TECHNOLOGIES

Xamarin, MS Azure Mobile Services

With over 2000 engineers,
Sii is the Top IT & Engineering services provider in Poland.
