Associate/Regular/Senior

Associate/Regular/Senior

AI-accelerated teams

Our teams use Claude Code, GitHub Copilot, Atlassian Rovo, and AI-powered testing to ship faster and reduce cost.

Expertise as a service

Let us help you select the right cooperation model

Staff Augmentation

You manage everything. Individual specialists embed in your team, your tools, your sprints, your standups. Sii's role ends at delivering the person

When you need execution capacity

Team Leasing

You set priorities, we run delivery. A self-contained squad including delivery manager. You get weekly demos and milestone reporting.

When you want capacity without growing internal management

AI Build

You delegate the full project development to Sii. You pay according to the agreed budget or based on the outcome.

When you want someone to build for you

How to get started

Marcin Mosiołek

AI Competency Center Lead
