

# Document Intelligence

*Powered by Sii*

A smarter way to understand  
and use your documents

## THE CHALLENGE

# Common documentation challenges in business:

- Huge volumes of unstructured data
- Time-consuming manual document handling
- Prone to human error
- Difficult and slow access to key information

## OUR SOLUTION

# What Document Intelligence by Sii does:

- Automatically extracts essential facts from any document
- Transforms raw text into structured, useful insights
- Simplifies analysis by summarizing the most relevant information
- Enables faster, more confident decision-making

## REAL BUSINESS APPLICATIONS

# Where can you use it?
